

## Welcome to the Tuesday Tree Huggin' Tip!

It's great that so many people are **reducing** and **reusing** paper in the offices! Keep up the good work!

Now, what do we do with all that paper that can't be re-used? Let's **recycle** it! If you do not have a working recycling program at your office, the following are a few easy things you can do to get one going.

### Tip 5: Recycle paper that cannot be reused.

- Find out what **your county** requires for recycling and what they can do to help you start a program (see attached sheet for contacts).
- Dana Coleman of The Phoenix suggests the **Paper Retriever** service for each property. Not only do they pick up all of your recyclable paper at no cost to you, you get **money back** for each ton of paper collected! Contact Vickie James at **410-558-1704** to get a paper recycling bin installed at your property!
- Once your bins are in place, remember to **encourage** the residents as well as each other to recycle used paper – every little bit helps!

If you need help setting up a recycling program at your property, please don't hesitate to give me a call!

*Yours in crunchiness,*

*Angelique*
